Technical Skills

Core Java | Spring Boot | SQL Server | Object-oriented programming | Reusable libraries | Clean code practices | Database schema creation | GIT | Concurrency patterns | Maven | AWS

Soft Skills

Excellent problem-solving abilities and analytical skills | Quick learner with a proactive attitude towards learning new technologies | Ability to work well in a team and contribute to collective goals

Projects

Online Customer Service Support,

Online Collaborative Project 📁

Github 📁

- **Features:** Implemented Customer and Admin Authentication with Session UUID. Developed an Admin Role for managing the entire system. Users could register and log in to obtain a valid session token, ensuring secure access to the platform.
- **Areas Of Responsibility:** Customer and Operator Module.
- **Tech Stack:** Java | Hibernate | Spring Framework | Spring Boot | Postman

Online-Trip-Management-System,

Online Collaborative Project 📁

Github 📁

- **Features:** I contributed to a collaborative project with a team of 5 developers, creating a trip management platform similar to Yatra. We developed a RESTful API, following agile methodologies and implementing core technologies.
- **Areas of Responsibilities:** Building Database Schema | Designing architectural patterns | Building 2-different Modules
- **TechStack:** Core Java | Spring Boot | Spring Security | SQL Server | Swagger-UI

Banking System - JDBC Application, Individual Project 📁

GitHub 📁

- **Features:** Developed a mini-application utilizing JDBC transaction consistency for seamless transaction handling. Implemented a menu-driven console interface enabling users to perform various functions such as creating an account, logging in, viewing balances, and transferring money to other customers.
- **Areas of Responsibilities:** Complete Application
- **TechStack:** Core Java | MySQL Server | JDBC | Console Interface

Training Experience

Java Backend Developer

Apr 2022 – Jul 2023

Completed intensive 1-year training in Java backend development, gaining hands-on experience in Core Java, Spring Boot, SQL Server, and RESTful API development. Developed proficiency in building scalable and efficient backend systems, ready to contribute to impactful projects in the industry.
